

Indiana Supersearch (INSS)

Automated reach. Human verification. Court-level accuracy.

The Indiana Supersearch (INSS) searches court-level indexes across all 92 Indiana counties simultaneously, delivering real-time statewide coverage in one consolidated report. Potential records are reviewed by expert researchers for identifiers, accuracy, and reportability. No private databases are used, and no separate county follow-up orders are needed.

1

Parallel Searches

All 102 I counties searched simultaneously using predominantly court-level indexes.

2

Automation + Expert Review

Automated case retrieval followed by expert verification on every hit for IDs, accuracy, and reportability.

3

Court-Level Confirmation

Confirmed records include case number, court, charge level, key dates, disposition, sentencing, & all readily available identifiers.

Traditional Indiana State Police Repository

- ☐ Excludes Class B and C misdemeanors and most traffic offenses
- ☐ Completeness depends on county court participation, which can leave gaps
- ☐ Arrest-based records may not show how the court case was resolved; case detail can be limited
- ☐ Records may not be up-to-date. Follow-up searches needed.

Indiana Supersearch (INSS)

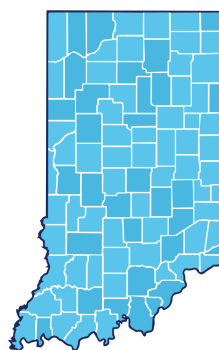

- ☒ Includes Class B and C misdemeanors and most traffic offenses (when needed)
- ☒ Completeness does not depend on county participation, all 92 counties searched
- ☒ Court-level records include full case information, dispositions and sentencing
- ☒ All records complete and fully up-to-date. No follow-up searches needed

NO PRIVATE DATABASES
Direct court-level data from Indiana's Public access system

TYPICAL SCOPE
10 years: felony/misdemeanor convictions
7 years by file date: non-convictions
